FINE ARTS CURRICULUM (HS)

- ▶ Teachers encourage students to express and explore thoughts and ideas using their God-given abilities while creating in the visual arts. Teachers present the comprehensive art program from a Biblical Worldview while meeting state standards and benchmarks. Educators designed the course to meet the needs of all high school students who would like to create art. Students cultivate a passion for individual ideas and expression, while making quality works of art. Whether the student is new to art and learning foundational methods or is advanced in his or her skills and preparing a portfolio for college admissions, this class challenges all. Areas of study include drawing, painting, design, ceramics, sculpture, fiber art, and animation. Students meet four periods a week along with two additional opportunities per week for art-extension classes.
